

| <b>ES6</b>                          |              |                              |                                |
|-------------------------------------|--------------|------------------------------|--------------------------------|
| <b>ES6 classes of economic size</b> |              | Limits in euro (€)           | <i>For editional purposes:</i> |
|                                     |              |                              | Limits in 000 euro (€)         |
| 1                                   | Very small   | $2\ 000 \leq € < 8\ 000$     | $2 \leq € < 8$                 |
| 2                                   | Small        | $8\ 000 \leq € < 25\ 000$    | $8 \leq € < 25$                |
| 3                                   | Medium-small | $25\ 000 \leq € < 50\ 000$   | $25 \leq € < 50$               |
| 4                                   | Medium-large | $50\ 000 \leq € < 100\ 000$  | $50 \leq € < 100$              |
| 5                                   | Large        | $100\ 000 \leq € < 500\ 000$ | $100 \leq € < 500$             |
| 6                                   | Very large   | $€ \geq 500\ 000$            | $€ \geq 500$                   |

**Explanation:** Polish FADN field of observation includes agricultural holdings with minimal threshold of economic size on the level of 4 000 euros. Therefore, in case of 1. ES6 economic size class "Very small" the limit in euro is in fact the following:  
 $4\ 000 \leq € < 8\ 000$ .
